

We have been using Parsley and Thyme Catering for over 3 years now, primarily because of their efficient and effective, yet friendly service. However, over the years I've found I've always been able to count on Paul and his team to offer creative suggestions for our menus and solutions to those most exacting catering requirements. So, whether its a 3 course meal for 50, or a small finger buffet Paul has always delivered the same attention to details and quality product and service that I've grown to expect. I can highly recommend Parsley and Thyme Catering for the excellent service they provide.
